

Touch For Health Kinesiology Fundamentals

A Workshop with Heather Mikayla

April 26th and May 3rd
(Two Sundays 9 am – 6 pm)

Experience the power and effectiveness of one of the most advanced systems of holistic health care. **Touch For Health Kinesiology** is the ultimate blend of structural and energetic bodywork, where you can find and intervene at the source of a person's pain. Through the art and science of muscle testing, you can "listen" to the innate wisdom of the body to have it guide you to what is needed to create good health and optimum performance.

This approach, based on Chinese Medicine and modern advances in Energy Medicine, uses a wide variety of effective techniques to eliminate pain and dysfunction and restore the body and emotions to a state of balance. In this workshop you will learn several practical skills that you can integrate into your work with others, to get profound and often immediate results. You can use these interventions to enhance your own health and well-being as well. It is also an excellent approach to creating peak performance in any area.
