

Light Bodies presents

This workshop was developed by DR Bruce and Joan Dewe. DR Dewe is a New Zealand doctor who no longer practices traditional medicine but instead operates a Kinesiology clinic. He and his wife developed a series of workshops designed to empower people by giving them tools, hope and techniques to enable them to move out of their present situations, whether it be pain, dysfunction, overwhelm, weariness, fatigue, frustration or apparent hopelessness. In this workshop you will learn a number of techniques that were originally developed by the people of Tibet to aid in healing and improve energy and vitality.

The techniques will include:

- ▲ **Figure 8 Energy Flow Patterns** - where they are, what they do, how they become imbalanced and how to balance them.
- ▲ **The Healing Power of Sound** - how to use the healing power of sound and the importance of different frequencies in clearing the chakras.
- ▲ **Spiral Energy Flow Above the Head** - learn how to tune into to these energy vortexes above the head and balance them to quiet overwrought states and increase life energy.
- ▲ **The Spinning Vortices** - learn about the seven magnetic centers (in addition to the chakras) that revolve at great speed in a vital healthy body and how to increase the rate of spin using the five Tibetan vitality exercises.

Date: **Time:** 9am - 5pm **Cost:** \$155 **Where:** LightBodies

check, cash or credit cards accepted
